

MAE RESEARCH DAY

2017

Friday, September 15

3:00pm

Maeder Hall Auditorium

3:00 pm Applied Physics

Julien de Troullioud de Lanversin: “Nuclear Detectives”

3:24 pm Dynamics & Controls

Rebecca Gray: “Honeybee-inspired Dynamics for Multi-agent Decision Making”

3:48 pm Fluid Mechanics

Clayton Byers: “Multi-Component Velocity Measurements in a Wall Bounded Turbulent Flow Utilizing a Novel Sensor”

4:12 pm Materials Science

Ting-Hsuan Chen: “Ultrafast Z-scanning for High-efficiency Laser Material Processing”

4:36 pm Thermal Science

Xiaoyu Tang: “Dynamics of Drop Impact on Liquid Pool”

**WELCOME BACK BBQ
IN EQUAD COURTYARD
FOLLOWING PRESENTATIONS**
